Sellers are responsible for ensuring that their profile information remains accurate and up to date.

.

4. ORDER MANAGEMENT

4ceps.com is an online marketplace for delivery of health products like medicines, medical devices, surgical instruments & equipment, health supplements, cosmetics & veterinary products

BUYER FINAL PRICE

The platform has inbuilt data of health products like medicines, medical devices, surgical instruments & equipment, health supplements, cosmetics & veterinary products. Buyer can search any health products. The products searched may be added into the cart along with quantity required. After all products are added into the cart, he will upload copy of prescription against each item where prescription is mandatory. Buyer can edit any of the details before check out. If patient do not upload prescription, the system will allow to check out only if prescription is not mandatory. If prescription is mandatory, system will not allow to check out until prescription is uploaded. The MRP including all applicable taxes will be displayed. The buyer can proceed to get final price from the 4ceps sellers if all data is correct

FINAL PRICE

As soon as the buyer proceeds with GET FINAL PRICE, the request for price will be shared with all sellers of SUCH health products. The buyer will be notified to wait for 20 minutes to check availability, price & delivery by sellers. In this 20 minutes, the sellers of REQUESTED PRODUCTS will check whether prescription is mandatory, the correctness of prescription, availability (if not available he will share the quotation of similar alternative products), quantity (whether full requested quantity is available or partial quantity) whether minimum period of 3 months validity is available, determine his price & discount and 5 percent platform fees., whether he delivers freely to buyer's location if yes in what duration. If no delivery is provided by seller, then he can give option of getting delivered by the third party logistics provider after payment is made to him & collect products by the delivery agent of logistics provider by paying delivery charges. Store pick up option is also available. This entire process has to be completed in 20 minutes & shared with buyer. The buyer will be shown final discounted price with applicable taxes.

ORDER PLACEMENT

After 20 minutes, the buyer will get display of all quotations received within 20 minutes in order of ascending order of price & delivery duration. He will also get notified whether same drug or quantity as requested or similar alternative brand & partial quantity available or only few products are available. He will place order based on seller, price & delivery duration. He should place order within 10 minutes.

He can choose mode of delivery

- store pick up

- free delivery by seller if available

- paid delivery by third party logistics provider. if delivered by the third party logistics provider, payment is to be made to seller through UPI or any other mutually agreed mode. Seller may share QR code with buyer through whatsapp. The buyer has to collect products by the delivery agent of logistics provider by paying delivery charges.

THE SELLER HAS TO DELIVER ONLY THROUGH COLD CHAIN LOGISTICS IF PRODUCTS REQUIRE TEMPERATURE REGULATION

Those sellers who misses 20 minutes deadline are given additional 10 minutes time to send quotations. But these quotations appear on the buyers dashboard after cumulative 30 minutes and stay for 5 minutes. If buyer has not confirmed order in 10 minutes window due to any reason, he/she can confirm orders in this 5 minute whether where all quotations appear

REORDER & REPEAT ORDER

After 35 minutes live orders disappear from both seller & buyer dashboard & REFLECT IN PAST ORDERS

The buyer can reorder any time after expiry of live order with or without editing. The seller can share same saved quotation against said request with or without editing.

He can also repeat order after products are delivered.
